

Collie Clip

Multi-Purpose Adaptable
Stainless Steel Clip

Collie Clip

Multi-Purpose Adaptable
Stainless Steel Clip

A unique, compact, easy to use adaptable "**clip within a clip**", equivalent to having an extra set of hands, allowing you to free up valuable resources.

The Collie Clip is designed, with the flexibility to attach to a broad range of surfaces, fixing points and equipment used in clinical areas, as well as mobile and emergency environments.

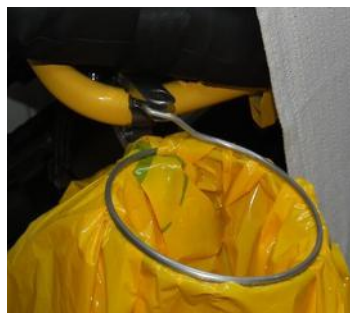

Innovative, specially designed "**clip-in**" attachments adapt the Collie Clip to specific applications. These range from a simple cable tidy or waste bag holder to supporting intravenous drips and airway tubing.

Manufactured from Stainless Steel, the Collie Clip is highly durable, will not rust or corrode and can be decontaminated and sterilized safely.

Collie Clip Applications:

- IV Bag Holder
- Urinary Catheter Bag Holder
- Chest Drainage Bag Holder
- Waste Bag Holder
- Swab Bowl Holder
- Patient Warming Tube Holder
- Horizontal/Vertical Drapes
- Airway Management Tool
- Line or Cable Separator
- Sharps Bin Holder
- Holding Documents

The anatomy of the "clip within a clip"

1) Primary Clip Jaws

- Will grip rod or tube to a max diameter of 25.4mm, flat surfaces up to 22mm
- Rounded jaws designed not to damage drapes or cloth

2) Secondary Jaws - The "clip within a clip"

- A pair of secondary jaws which operate independently of each other and also of the primary jaws
- **Used for:** Insertion of specially designed Collie Clip "**clip-in**" attachments for applications such as holding waste bags, IV bags, drapes, small cables and tubing etc.

Collie Clip

IV Bag Holder Attachment

In conjunction with the Collie Clip the IV Bag Holder Attachment is ideal for use by first responders administering IV solutions in disaster or mass casualty situations.

Either in the field, a temporary facility or an overrun hospital, the Collie Clip provides a highly flexible IV management solution.

The Collie Clip enables easy transfer of IV bags from first response, to patient transport and the medical facility. The attachment is compact and easily packed away into a utility bag, ready for use.

Manufactured from Stainless Steel, the Collie Clip IV Bag Holder Attachment is highly durable, will not rust or corrode and can be decontaminated and sterilized safely.

Features:

- Adaptable to surrounding environment /infrastructure
- Capable of holding one or two IV Bag Holder Attachments
- Free up personnel from supply and equipment holding tasks
- Can also be used to hold chest drain or urinary catheters
- Compact and portable
- Lightweight
- Robust
- Cost effective
